Dear Parents and Carers

**Re: Revision Guides for Year 10 Science GCSE Students – available NOW**

To support your child with their science GCSE studies, the science department would like to recommend that you purchase one or more of the Collins AQA revision guides. These revision guides cover the course content that the students will be studying. They also offer a mixture of quick support and exam style questions that students can use to test themselves to support preparation for their GCSE's

These revision guides will be available through the School Shop in the Finance Office. To purchase a guide, please return the reply slip at the bottom of this letter along with the appropriate money. We are providing these guides at the cost price, which allows us to offer you a saving on the retail price of over 50%. If we receive additional Pupil Premium funding for your child, please tick the box on the order form, as support is available to purchase these resources.

**For students studying Triple science (The option science course);**

Biology Revision Guide	£2.50
Chemistry Revision Guide	£2.50
Physics Revision Guide	£2.50

**For students studying Trilogy Science (Combined Science);**

Combined Science Revision Guide	£3.25
---------------------------------	-------

These revision guides are not exclusive as other revision guides are available to support your child, however, these are the revision guides that the science department have purchased and will be using in lessons. If you wish to purchase an alternative revision guide, please ensure that you obtain one that covers the AQA 9-1 Science syllabus.

Yours sincerely

Mr Matthew Collard
