Dear Parents and Carers,

Re: Revision Materials for Science GCSE Students

To support your child with their science GCSE studies, last year the science department recommended that every student in year 11 purchase a revision guide from the school shop in the finance office. These revision guides contain the basic information that the students need to know for their GCSE exams and provide support for your child with their classwork and revision for tests and exams.

To accompany these guides, we have also selected a range of additional resources, which are also available at cost price through the school shop. The range was chosen to support different learning styles and approaches to revision. We would like to recommend this year, that every student in Y11 purchases a workbook to accompany their revision guide. Other revision materials can also be purchased from the school shop.

If you would like to purchase any of these revision materials, please return the appropriate reply slip below, together with the correct money, to the school finance office. **You can find the tier of entry for your child on Go4Schools.** If we receive additional Pupil Premium funding for your child, please tick the box on the order form, as support is available to purchase these resources. We will ensure that materials are available throughout the year to ensure that students can purchase them at any time to support their study.

Students studying Separate (Triple) Sciences could purchase:	Students studying Combined Science Trilogy could purchase:
