

30th January 2026

Dear Parents and Carers,

Re: Science revision support for Year 11 students ahead of the March mock exams

I am writing to inform you about the lunchtime science revision sessions that will be available to all Year 11 students in the build-up to their March mock exams. These sessions are designed to support students with their revision and help them strengthen their understanding of key topics in Biology, Chemistry, and Physics. They are not intended to replace independent revision.

Across a three-week period, we will be offering focused sessions covering all three sciences. Each week, there will be a Biology, Chemistry, and Physics session available for every tier of entry: Foundation, Higher, and Triple Science. All sessions will run from **13:30 to 14:00** during lunchtime.

You will need to book your child's place using the same online system used for Parents' Evening appointments. The booking system will open on **Monday 2nd February at 9:00**, and the sessions will begin in the week commencing **Monday 9th February**.

If a session shows as fully booked on the system, please encourage your child to come along anyway. In some cases, there is space available in the room on the day, and we will accommodate as many students as possible.

Parents who wish to track their child's attendance can do so via Go4Schools, where a **+2** will usually be added later the same day for attending a science intervention, providing they sign the register.

To further support students with their preparation for the March mock exams, we have also created dedicated Google Classrooms for each science tier. These contain revision resources, topic summaries, and practice questions to help students structure their independent revision.

Your child can join the appropriate classroom using the following codes:

Triple	3wepl3uq
Higher	5xzgd5i7
Foundation	25f6vsxz

If you have any questions about the sessions or the booking process, please contact me using my email address below.

**Yours faithfully,
Mr Collard**
