Dear Parent / Carer,

Re: Clarification about the mobile phone and smart communication device policy

We have received a few queries asking if smart watches are permitted in school. The Governments directive on mobile phones extends to smart communication devices and explicitly says any device that could receive notifications or messages.

In line with this, smart watches and other smart communication devices all come under the same policy and students are not allowed to have them on their person or in their bag between the hours of 8.30am and 3pm. If they bring any smart communication device to school, it must be stored in a locker during this time.

Yours faithfully,

Edward Slingsby
