Soham Village College
Achieving Excellence with Care

12 November 2026

Dear Parent/Carer,

We are pleased to offer Year 10 Combined Science Foundation students the opportunity to purchase a GCSE revision workbook through the MCAS app.

The revision resource available is a complete revision and practice workbook that covers all of the content required for the AQA GCSE Combined Science Foundation course. The book contains comprehensive revision material alongside a large number of practice questions to support students with their learning and exam preparation. Although the answers are not printed within the book itself, information is provided at the front explaining where the answers can be found so that students can check their progress independently.

This workbook can be used immediately to support preparation for the Year 10 mid-year science examinations, which will be held at the end of January (dates to be confirmed). Beyond this, it will remain a valuable revision resource for the Year 10 end-of-year examinations, the November and March mock examinations in Year 11, and ultimately the final GCSE examinations.

The workbook is available to purchase through the MCAS app until **Monday 23 November**. Parents will benefit from a **50% discount** on the retail price and will therefore pay only the net price shown below:

- GCSE Combined Science Foundation Revision & Practice Workbook: £9.00

If you would like to find out more about the revision guide, or compare the discounted price available through the school with prices available from other retailers, you can search online for 'Oxford Revise: AQA GCSE Combined Science Foundation Revision and Exam Practice.'

We encourage all students to take advantage of this opportunity to obtain a high-quality revision resource that will support them throughout their GCSE Science studies.

Yours faithfully,

Mr Collard

Head of Key Stage 4 Science
