Soham Village College
Achieving Excellence with Care

12 November 2026

Dear Parent/Carer,

We are pleased to offer Year 10 Combined Science Higher students the opportunity to purchase a GCSE revision workbook through the MCAS app.

The revision resource available is a complete revision and practice workbook that covers all of the content required for the AQA GCSE Combined Science Higher course. The book includes detailed revision material and a large number of practice questions designed to help students consolidate their understanding and prepare effectively for examinations. Whilst the answers are not printed in the book, information is provided at the front explaining where the answers can be accessed to allow students to check their work and monitor their progress.

This workbook will be a valuable resource throughout the remainder of the GCSE course. Students can use it to revise for the Year 10 mid-year science examinations, which will take place at the end of January (dates to be confirmed). It will then remain relevant for the Year 10 end-of-year examinations, the November and March mock examinations in Year 11, and the final GCSE examinations.

The workbook is available to purchase through the MCAS app until **Monday 23 November**. Through a school discount arrangement, parents will receive a **50% discount** on the retail price and will only pay the net price shown below:

- GCSE Combined Science Higher Revision & Practice Workbook: £9.00

If you would like to find out more about the revision guide, or compare the discounted price available through the school with prices available from other retailers, you can search online for 'Oxford Revise: AQA GCSE Combined Science Higher Revision and Exam Practice.'

We strongly recommend this resource as an excellent way for students to support their revision throughout Years 10 and 11.

Yours faithfully,

Mr Collard

Head of Key Stage 4 Science
